Features:

Construction:

- Molded fiberglass construction.
- Seamless surfaces eliminate dirt catching corners, crevices, and cracks.
- Non-corrosive fixtures cannot stain floors or carpets.
- High impact vinyl bumper.
- Molded in center drain that dumps into the water reservoir base.
- Heavy duty casters standard.
- Primarily used for displaying items such as seafood, juice and cola products, and prepared salads.

Finish:

- Smooth, glossy, non-porous fiberglass exterior in your choice of standard colors.
- Custom colors matched to any decor are available and carry a 5% color upcharge. Black carries a 10% color upcharge.
- Granite finishes are also available and carry a 15% color upcharge.

Mobile Ice Cart Features:

- Can be used as an ice transport and/or a spot merchandiser.
- Urethane foam insulation for extended ice life.
- Stainless steel hinged, fiberglass lid.
- Large heavy duty non-marking casters.
- Molded in drain with shutoff valve.

Value:

- Cost of ownership, not acquisition cost is the true measure of value. Food Furniture® lasts longer, requires less maintenance, and requires less labor to clean than other products.

Warranty:

- Food Furniture® products are warranted to the original purchaser and will be replaced free of charge if defects in workmanship or materials ever cause failure. This excludes improper use, general wear, or conditions of service not usually encountered.
